Diploma No : 8710
Diploma Date : 14.07.2026

Bu yeterlik
Türkiye Yeterlilikler Çerçevesine
yerleştirilmiştir.

The purpose of the Diploma Supplement is to provide sufficient independent data to improve the international "transparency" and fair academic and professional recognition of qualifications (diplomas, degrees, certificates, etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It is free from any value judgements, equivalence statements or suggestions about recognition. This Diploma Supplement model was developed by European Commission, Council of Europe and UNESCO.

1. INFORMATION IDENTIFYING THE HOLDER OF THE QUALIFICATION

1.1 Last name(s):

KHALAJ ZAHRAEI

1.2 First name(s):

Hamidreza

1.3 Date of birth (day/month/year):

28.09.1998

1.4 Student identification number or code (if available):

300204093

2. INFORMATION IDENTIFYING THE QUALIFICATION

2.1 Name of qualification and (if applicable) title conferred:

İnşaat Mühendisliği, Lisans
Civil Engineering, First Cycle

2.2 Main field(s) of study for the qualification:

Civil Engineering

2.3 Name and status of awarding institution:

İzmir Yüksek Teknoloji Enstitüsü, Devlet Üniversitesi
İzmir Institute of Technology, State University

2.4 Name and status of institution (if different from 2.3) administering studies:

Same as 2.3

2.5 Language of instruction/examination

English

3. INFORMATION ON THE LEVEL AND DURATION OF THE QUALIFICATION

3.1 Level of qualification:

First Cycle (Bachelor's) Degree

3.2 Official duration of programme in credits and/or years:

4 years (240 ECTS), 8 Semesters, 16 weeks per semester

3.3 Access Requirement(s):

Students are placed into this program with the score they get from the exam called YKS (the Exam for the Higher Education Council) carried out by ÖSYM (assessment selection and placement center).

4. INFORMATION ON THE PROGRAMME COMPLETED AND THE RESULTS OBTAINED

4.1 Mode of Study:

Full-time

4.2 Programme learning outcomes:

A student is required to have a minimum CGPA of 2.00/4.00 and no failing grades in any courses (credit and non-credit courses).

Objectives:

Most of the theoretical courses are face-to-face, and some are designed remotely. Courses that require computer application are taught face-to-face. In addition, material, geotechnical and hydraulic laboratory studies are carried out with individual or group efforts.

Key Learning Outcomes:

- Have sufficient background in basic mathematics, sciences, and engineering; utilize both the theoretical and practical knowledge in solutions of engineering problems.
- Identify, formulate, and solve basic civil engineering problems by using appropriate methods and techniques.
- Design a system, a component or a process to meet the specific needs and requirements of civil engineering problems.

4.3 Please see next page

4.4 Please see next page

4.5 Overall classification of the qualification (in original language):

Şeref (Honour)

Please see next page

5. INFORMATION ON THE FUNCTION OF THE QUALIFICATION

5.1 Access to further study:

Upon successful completion of this programme, students may apply to second cycle degree or directly to integrated third cycle (doctorate) programmes.

5.2. Access to a regulated profession (if applicable):

This degree enables the graduate to exercise the profession.

6. ADDITIONAL INFORMATION

6.1 Additional information:

Department of Civil Engineering web site: <https://civil.iyte.edu.tr/> This program is accredited by MÜDEK (Association for Evaluation and Accreditation of Engineering Programs, <http://www.mudek.org.tr>) for the period from May 2026 to September 2028.

6.2 Further information sources:

University's ECTS Course Catalogue: ects.iyte.edu.tr

4.3 Programme details, individual credits gained and grades/marks obtained:

Code	Course Name	Course Category	Institutional Credit	Grade	ECTS Credit
Preparation Semester					
PREPERATION		Required	0		0
					Total ECTS: 0
1. Semester					
CE101	INTRODUCTION TO CIVIL ENGINEERING	Required	2,00	BB(6)	6,00
CHEM121	GENERAL CHEMISTRY I	Required	3,00	AA(12)	5,00
CHEM141	GENERAL CHEMISTRY LABORATORY I	Required	1,00	CC(2)	2,00
ENG101	DEVELOPMENT OF READING AND WRITING SKILLS I	Required	3,00	AA(12)	3,00
MATH145	CALCULUS FOR ENGINEERING AND SCIENCE I	Required	5,00	CB(12.5)	7,00
PHYS121	GENERAL PHYSICS I	Required	4,00	AA(16)	7,00
					Total ECTS: 30
2. Semester					
CE102	TECHNICAL DRAWING	Required	3,00	AA(12)	5,00
CE221	ENGINEERING MECHANICS I: STATICS	Required	3,00	AA(12)	6,00
ENG102	DEVELOPMENT OF READING AND WRITING SKILLS II	Required	3,00	BA(10.5)	3,00
GCC101	CAREER PLANNING AND DEVELOPMENT	Required	0,00	S(0)	2,00
MATH146	CALCULUS FOR ENGINEERING AND SCIENCE II	Required	5,00	CB(12.5)	8,00
PHYS122	GENERAL PHYSICS II	Required	4,00	AA(16)	8,00
					Total ECTS: 32
3. Semester					
CE203	ENGINEERING GEOLOGY	Required	3,00	AA(12)	4,00
CE205	STATISTICAL METHODS FOR ENGINEERS	Required	3,00	BA(10.5)	4,00
CE224	MECHANICS OF MATERIALS	Required	3,00	AA(12)	5,00
CE231	ENGINEERING ECONOMY	Required	3,00	BB(9)	3,00
CE241	MATERIALS SCIENCE	Required	3,00	AA(12)	4,00
MATH255	DIFFERENTIAL EQUATIONS	Required	4,00	AA(16)	6,00
TURK203	TURKISH FOR INTERNATIONAL STUDENTS I	Elective	0,00	S(0)	2,00
HIST203	HISTORY OF TURKISH REVOLUTION FOR INTERNATIONAL STUDENTS I	Elective	0,00	S(0)	2,00
					Total ECTS: 30
4. Semester					
CE104	INTRODUCTION TO COMPUTER PROGRAMMING	Required	3,00	AA(12)	5,00
CE204	ENGINEERING SURVEYING	Required	3,00	BA(10.5)	4,00
CE222	ENGINEERING MECHANICS II: DYNAMICS	Required	3,00	BA(10.5)	5,00
CE244	MATERIALS OF CONSTRUCTION	Required	4,00	AA(16)	4,00
CE272	FLUID MECHANICS	Required	3,00	AA(12)	4,00
MATH265	BASIC LINEAR ALGEBRA	Required	3,00	BB(9)	4,00
HIST204	HISTORY OF TURKISH REVOLUTION FOR INTERNATIONAL STUDENTS II	Elective	0,00	S(0)	2,00
TURK202	TURKISH LANGUAGE II	Elective	0,00	S(0)	2,00
					Total ECTS: 30
5. Semester					
CE300	SUMMER PRACTICE I	Required	0,00	S(0)	7,00
CE301	NUMERICAL METHODS IN ENGINEERING	Required	3,00	AA(12)	3,00
CE321	INTRODUCTION TO STRUCTURAL MECHANICS	Required	3,00	DD(3)	6,00
CE351	INTRODUCTION TO TRANSPORTATION ENGINEERING	Required	3,00	BA(10.5)	5,00
CE361	SOIL MECHANICS I	Required	4,00	BA(14)	5,00
CE371	HYDROMECHANICS	Required	4,00	AA(16)	4,00
					Total ECTS: 30
6. Semester					
CE322	INTRODUCTION TO STRUCTURAL ANALYSIS	Required	3,00	AA(12)	6,00
CE324	FUNDAMENTALS OF REINFORCED CONCRETE DESIGN	Required	3,00	BB(9)	6,00
CE232	CONSTRUCTION MANAGEMENT	Required	3,00	BB(9)	5,00
CE362	FOUNDATION ENGINEERING I	Required	3,00	BB(9)	5,00
CE372	ENGINEERING HYDROLOGY	Required	3,00	CC(6)	5,00
CHN201	ELEMENTARY CHINESE I	Elective	3,00	BB(9)	3,00
					Total ECTS: 30
7. Semester					
CE400	SUMMER PRACTICE II	Required	0,00	S(0)	7,00
CE421	FUNDAMENTALS OF STRUCTURAL STEEL DESIGN	Required	3,00	CB(7.5)	4,00
CE471	WATER RESOURCES ENGINEERING	Required	3,00	AA(12)	4,00
CE454	TRAFFIC ENGINEERING	Elective	3,00	AA(12)	5,00
CE429	COMPUTER APPLICATIONS IN STRUCTURAL ENGINEERING	Elective	3,00	AA(12)	5,00
CE453	HIGHWAY, RAILWAY, PORT AND AIRPORT DESIGN	Elective	3,00	BA(10.5)	5,00
					Total ECTS: 30
8. Semester					
CE402	CIVIL ENGINEERING DESIGN	Required	3,00	AA(12)	12,00
CE476	GROUNDWATER MONITORING AND ASSESSMENT	Elective	3,00	CB(7.5)	5,00
CE480	DESIGN OF COASTAL STRUCTURES	Elective	3,00	BB(9)	5,00
MAN216	INTRODUCTION TO MARKETING	Elective	3,00	AA(12)	5,00
CE452	HIGHWAY AND AIRPORT PAVEMENT MATERIALS	Elective	3,00	AA(12)	5,00
					Total ECTS: 32

Total Credits Obtained: 139,00 (Institutional), 244,00 ECTS

Cumulative Grade Point Average (CGPA): 3,46 out of 4,00

All details have been provided in the transcript

4.4 Grading system and (if available) grade distribution table:

Each course is assessed by one of the following grades whose coefficients and percentage equivalents are indicated:

Percentage	Course Grade	Coefficient
90 - 100	AA	4.00
85 - 89	BA	3.50
80 - 84	BB	3.00
75 - 79	CB	2.50
70 - 74	CC	2.00
65 - 69	DC	1.50
60 - 64	DD	1.00
50 - 59	FD	0.50
49 and below	FF	0.00

Other (Incomplete) is given to a student who provides documentary evidence of illness or other reason that has prevented his/her completion of work. Unless the student completes the work and obtains a grade within 15 days of original due date of grades, (I) grade becomes (FF).(S) (Satisfactory) is given upon successful completion of a non-credit course and (U) (Unsatisfactory) upon unsuccessful performance in the same.(S) may be assigned to transfer courses. (P) (Progressing) is given upon successful performance in a non-credit course (The "Progressing" grade is not applicable for undergraduate students). (EX) (Exempt) indicates exemption by Departmental examination in courses identified by the Institute's Senate. (NI) (Not Included) is assigned for a course taken on condition that it is not included in the CGPA. (NA) (No Attendance) is given upon failure to attend classes or complete practical or applied components of a course. (NA) configures in CGPA as (FF). (W) (Withdrawn) is given for withdrawal from a course after the closing of the add-drop period and within the first ten weeks of commencement of the semester upon advisor's recommendation and lecturer's permission (The "Withdrawn" grade is not applicable for graduate students).

GPA (Grade Point Average), **CGPA** (Cumulative Grade Point Average) A student's academic standing is calculated in terms of GPA and CGPA which the Registrar posts at the conclusion of each semester. The total credit points for a course are obtained by multiplying the coefficient of the final grade by the credit hours. GPA for any given semester is obtained by dividing total credit points earned in a semester by total credit hours. CGPA is calculated on the basis of all the courses a student has taken since commencement of studies for the indicated degree.

Conditions for award of Bachelor's Diploma

CGPA not under 2.00, successful completion of all courses required for graduation. Students whose CGPA is between 3.00 and 3.49 are listed as Honour graduates while those whose CGPA is between 3.50 and 4.00 are listed as High Honour graduates. Honour or High Honour standing is indicated on the degree certificate.

Conditions for award of Master's Diploma in Master's with Thesis

student must complete minimum required course load specified by the Department in at least four consecutive semesters with a CGPA of at least 3.00; must take thesis examination no later than the end of the sixth semester upon commencing the programme. The minimum course load is 7 courses (at least 21 Institute credits) excepting mandatory non-credit courses.

In Master's without Thesis

student must complete minimum required course load specified by the Department in at most six consecutive semesters with a CGPA of at least 3.00; must matriculate in a minimum of 10 courses (at least 30 Institute credits) and complete a graduation project.

Conditions for award of Doctoral Diploma

student must complete the required number of courses specified by the Department within at least four consecutive semesters; maintain a minimum CGPA of 3.00; pass a Doctoral Qualifying Examination; prepare a thesis and hold the Dissertation Defence no later than the twelfth semester upon commencing the programme. The minimum course load is 7 courses (at least 21 Institute credits) excepting mandatory non-credit courses.

Conditions for award of Doctoral Diploma without Master Degree

student must complete the required number of courses specified by the Department within at least six consecutive semesters; maintain a minimum CGPA of 3.00; pass a Doctoral Qualifying Examination; prepare a thesis and hold the Dissertation Defence no later than the eighteenth semester upon commencing the programme. The minimum course load is 14 courses (at least 42 Institute credits) excepting mandatory non-credit courses.

7 - CERTIFICATION OF THE SUPPLEMENT

7.1 Date:

14.07.2026

7.2 Name and Signature:

Aynur YAKAR

7.3 Capacity:

Director of Student Affairs

7.4 Official stamp or seal:

8 - INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

Structure and Degree System

The basic structure of the Turkish National Education System consists of stages of non-compulsory pre-school education; compulsory primary (elementary and middle school) and secondary (high school) education; and higher education. Primary education begins at the age of 5.5 (66 months), lasts eight years and comprises elementary and middle school education, four years each. Secondary education is also four years and divided into two categories as "General High School Education" and "Vocational and Technical High School Education". The entry into these categories is through composite scores obtained from a centralized exam for secondary schools.

Higher education system in Türkiye is managed by the Council of Higher Education (CoHE, Yükseköğretim Kurulu-YÖK) which is an autonomous public body responsible for the planning, coordination, governance and supervision of higher education within the provisions set forth in the Constitution of the Turkish Republic and the Higher Education Law. Both state and non-profit foundation universities are founded by law and subjected to the Higher Education Law and to the regulations enacted in accordance with it.

Higher education in Türkiye comprises all post-secondary higher education programmes, consisting of short, first, second, and third cycle degrees in terms of the terminology of the European Higher Education Area (EHEA). Undergraduate level of study consists of short cycle (associate's-önlisans derecesi) and first cycle (bachelor's-lisans derecesi) degrees which are awarded after successful completion of full-time two-year (120 ECTS) and four-year (240 ECTS) study programmes, respectively. The structure of first and second cycles is separate except for dentistry, pharmacy, medicine and veterinary programmes which are one-tier systems (lisans ve yüksek lisans bütünlük programları). The duration of these one-tier programmes is five years (300 ECTS) except for medicine which lasts six years (360 ECTS). The level of qualifications in these one-tier programmes is equivalent to that of second cycle including first cycle.

Graduate level of study consists of second cycle (master's-yüksek lisans derecesi) and third cycle (doctorate-doktora derecesi) degree programmes. Second cycle degrees are divided into two sub-types named as master with thesis and master without thesis. The master programmes with thesis require 120 ECTS credits, which consist of courses, a seminar, and a thesis. Master programmes without thesis require 60 to 90 ECTS credits and consist of courses and a semester project. These programmes do not give direct access to third-cycle doctoral studies; for access to third-cycle programmes candidates should fulfil the thesis and other requirements of master programmes with thesis. 60 ECTS non-thesis master programmes are exceptional and exist in a few disciplines. Third cycle (doctorate with master degree) degree programmes are completed having earned 240 ECTS credits, which consist of completion of courses, a seminar, passing a scientific proficiency examination and a doctoral thesis. Third cycle (doctorate with bachelor degree) degree programmes are completed having earned 300 ECTS credits, which consist of completion of courses, a seminar, passing a scientific proficiency examination and a doctoral thesis. Proficiency in art, specialisation in medicine and in dentistry are accepted as equivalent to third cycle programmes, the last two being carried out within the faculties of medicine and dentistry, university hospitals and the training hospitals operated by the Ministry of Health. Universities consist of graduate schools (Institutes) offering second cycle and third cycle degree programmes, faculties offering first cycle programmes, four-year professional higher education schools offering first cycle degree programmes and two-year vocational schools offering short cycle degree programmes.

Admission requirements: Admission of national students to short and first cycle degree programmes is centralised and based on a nationwide one/two-stage examination(s) conducted by an autonomous public body (Assessment, Selection and Placement Centre-ÖSYM). Candidates gain access to institutions of higher education based on their composite scores consisting of the scores on the selection examination and their high school grade point averages. Admission to graduate programmes is directly conducted by the higher education institutions (HEIs) within the frameworks of the publicly available national and institutional regulations. Admission of international students to programmes at all levels of higher education can be done by direct applications of candidates to HEIs based on publicly available national and institutional regulations.

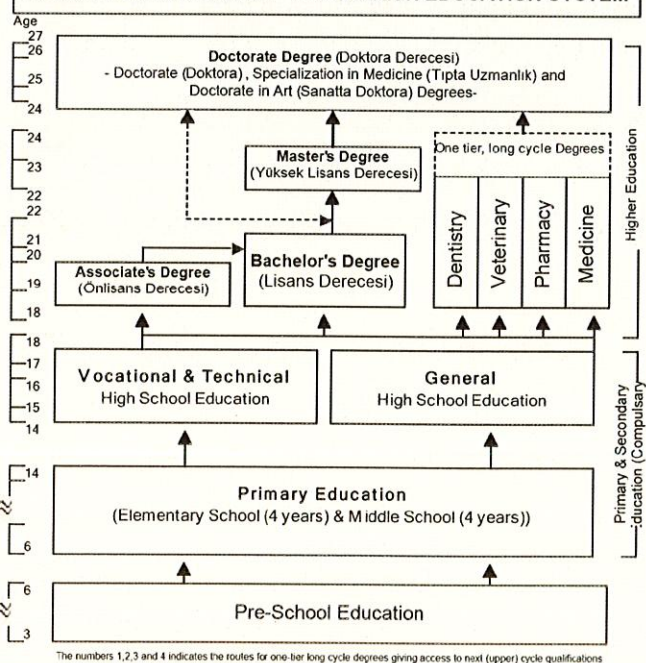

Turkish National Qualifications Frameworks: The National Qualifications Framework for Higher Education in Türkiye (TQF-HE, TYYÇ in Turkish) developed with reference to the QF for European Higher Education Area and the EQF for lifelong learning was adopted by the CoHE in 2010. Later in 2015, the framework became a part of Turkish Qualifications Framework (TQF, TYÇ in Turkish) which was designed as a single framework in harmony with the European Qualifications Framework and displays all qualifications gained through vocational, general and academic programs including primary, secondary and higher education or other learning environments. The framework was referenced with the EQF in 2017. TQF consists of 8 levels in which the higher education lies from 5 to 8. The levels of TQF and TQF-HE with reference to the European Overarching Qualifications Frameworks as well as that to ECTS credits and student workload are shown below.

Turkish Quality Assurance System: The Higher Education Quality Council of Türkiye (THEQC) was founded as an autonomous public legal entity in 2015, and since then it has been operating at the national level for evaluating the quality levels of higher education institutions' education and research activities and administrative services at institutional level in accordance with the national and international quality standards, and coordinating the processes of institutional accreditation, internal and external quality assurance as well as authorization of independent external evaluation and accreditation organizations. THEQC is a full member of ENQA (The European Association for Quality Assurance in Higher Education) since April of 28, 2020.

TYYÇ LEVELS, QUALIFICATIONS TYPES AND ECTS CREDITS

Higher Education Levels/Cycles			AWARDS/DEGREES	LENGTH (Year)	TOTAL ECTS CREDITS (Year x 60 ECTS)	TOTAL STUDENT WORKLOAD (h) (1 ECTS=25-30h)
QF-EHEA	EQF-LLL	TYYÇ LEVELS				
3	8	8	Doctorate	3 (min.)	180 (min.)	4.500-5.400
			Specialization in Medicine			
			Doctorate in Art			
2	7	7	Master's Degree	1 - 2	60 - 120	1.500-3.600
1	6	6	Bachelor's Degree	4	240	6.000-7.200
Short Cycle	5	5	Associate's Degree	2	120	3.000-3.600

GENERAL STRUCTURE OF THE TURKISH EDUCATION SYSTEM

Sayın Hamidreza KHALAJ ZAHRAEI

Mühendislik Fakültesi

İnşaat Mühendisliği Bölümü

Lisans Programında

gerekli çalışmaları başarı ile tamamlayarak

2025- 2026 Eğitim- Öğretim Yılında

Birincilik

derecesi ile mezun olmuştur.

Mister Hamidreza KHALAJ ZAHRAEI

Received his BS Degree in

Civil Engineering

Faculty of Engineering ranking

1st

in graduation in the 2025- 2026 Academic Year.

Prof. Dr. Yusuf BARAN

Rektör

İZMİR YÜKSEK TEKNOLOJİ ENSTİTÜSÜ
Izmir Institute of Technology

Hamidreza KHALAJ ZAHRAEI,

İnşaat Mühendisliği Bölümünde 2025-2026 Bahar Yarıyılında göstermiş olduğunuz başarı nedeniyle Yüksek Onur Öğrencisi olmaya hak kazanmış bulunmaktasınız.
Tebrik eder, başarılarınızın devamını dilerim.

You have been entitled to be a High Honor Student due to your academic achievements in the Department of Civil Engineering in the 2025-2026 Spring Semester.

I congratulate you and wish you continued success.

Prof. Dr. Yusuf BARAN

Rector / President

TÜRKİYE CUMHURİYETİ
